that **MINIMIZE PAPER USE**

**Limit handouts, use double-sided printouts
and choose chlorine-process-free and
recycled-content paper. Minimize use of
napkins and other paper products.**

The production and use of paper has adverse effects on the environment. Deforestation contributes to climate change. Pulp mills contribute to pollution of air, water and land. Discarded paper accounts for about 35 percent of municipal solid waste (before recycling). Paper recycling can be a source of pollution due to the sludge produced during de-inking.

#THURSDAYSINBLACK

In every country, gender-based violence is a tragic reality. This violence is frequently hidden, and victims are often silent, fearing stigma and further violence. We all have a responsibility to speak out against violence, to ensure that women and men, boys and girls, are safe from rape and violence in homes, schools, work, streets – in all places in our societies.

The campaign is simple but profound. **Wear black on Thursdays.** Show your respect for women who are resilient in the face of injustice and violence. Encourage others to join you.

Often black has been used with negative racial connotations. In this campaign Black is used as a color of resistance and resilience. Share your Thursdays in Black photos on Twitter, Facebook and Instagram, using hashtags #ThursdaysinBlack
